Title: Monkey and me

3A Wong Chun On

When I woke up this morning, I found a monkey in my room! I thought it was interesting so I tried to give a banana to the monkey. The monkey ate it fast. It didn't even peel the skin of the banana! I was so surprised!

Then, I went to a park. But surprisingly, the monkey followed me! I put the monkey on the swing and tried to play on the swing. The monkey was so frightened that it gripped the bars of the swing tightly. It was so funny! Then I took the monkey to a pond. I bought some bread from a store to feed the fish. When the monkey saw the fish gobbled and scoffed the pieces of bread, it thought the bread was delicious so it jumped into the pond to get the bread pieces. The fish swam away and the monkey had nothing and was all wet. I laughed and laughed so much that I almost fell backwards!

I wanted to keep this monkey as a pet so I asked my dad. But he refused. I took a photograph with the monkey and sadly released it into the forest nearby.

Title: Monkey and me

3A Yu Leasy

When I woke up this morning, I was very surprised. There was a naughty monkey climbing up the ceiling. I was angry so I picked up a stick and threw it at his head! It bounced off the ceiling and missed him by an inch. I chased after him for around 30 minutes and tied him up with a toy snake! Then, I found he was very funny so I played different games with him, such as "Rock, scissors, paper". We sang songs too, such as Lemon Tree and The Show. Then, we took turns creating stories. We created a story called "The Rabbit and The Cat". It's about a rabbit who claimed himself to be the best climber in the world. But the cat didn't believe him so they had a race of climbing trees. At the end, the cat won so the rabbit was very sad. We created other stories too.

At last the monkey went away and I woke up and found myself sitting on the cupboard where the monkey sat. I was curious about what had happened, and I finally realized what it was and said, "Oh! I know what it is now". Do you know?

Later, it was sunny so the monkey suggested to go to her home. The forest was near my house, so we only walked for about ten minutes. When we arrived, the monkey climbed up a tree and swung from tree to tree. I chased after her as fast as I could.

When we got to the monkey's house, her family came to greet us. I found that there was a banana hill on her bed. Suddenly, the banana hill collapsed on me, "Help, help!" I cried.

I woke up and rubbed my eyes. Oh, it was just a dream. When I was dreaming, I fell from my bed accidentally. What a cool dream!

3A Cheng Sin Yik

When I woke up this morning, I found a monkey in my room. She threw a banana at me. I was scared. I found "SOS" on the banana skin. Then, I asked her what happened. She told me she was a princess. But she was cursed to be a monkey by a witch because she was very beautiful. Then I asked, "How could I help you?"

The monkey said, "We need to find a magic key from the Queen Fairy living in the forest to free me from the spell. I promised the monkey to take this adventure with her.

After having breakfast, we walked into the forest. When we arrived at the riverside, there was a monster here and he wouldn't let us cross the river. He said, "If you can answer my question about past tense, I will let you go." His question was, "What is the past tense of 'teach'?" I really didn't know. Then I remembered there was a dictionary in my bag so I could find the answer from the dictionary.

After crossing the river, we arrived at the house of the Queen Fairy. The monkey asked the Queen for the magic key and told her to say the magic words "pudding pudding" to remove the spell.

I woke up again and found that I had just had a wonderful dream.

I thought it would be great to have my friends here to watch this funny monkey. So, I invited my friends to come over to have an animal party. Some of them brought their pets and some wore animal costumes. We played games and Puffy taught us to juggle. I felt like I was at the circus. We had lots of fun.

Suddenly, a television special report broadcasted that a circus monkey was lost. We realized that it was Puffy. We then sent it back to the circus. We promised Puffy that we would come to visit and watch his shows when we have time. We all had a wonderful day!

I played on the swing and it swung in the trees. Of course, the monkey was the winner. Then, we swam in the river. I swam faster than Jack so I won this time!

### Title: Monkey and Me

3B Chan Leong Hei

Yesterday, I woke up early in the morning. I was surprised that there was a monkey in my room. It jumped up and down. I wanted to tell my parents that there was a monkey. However, I also wanted the monkey to be my pet. So I kept it secretly in my room.

Later, when my parents went to work, I took some bananas from the kitchen and fed it. The monkey was very hungry so it ate them all. I called it Ban because it liked bananas very much. Then I went to buy a big cage from a pet shop. I wanted to raise it in the cage. When I went home, I found that my new pet had cleaned my room. It had already made my bed and tidied up my toys. It was unbelievable.

The next morning, when I got up, I found the cage was empty. Ban was not in the cage. I was nervous. When I opened the door to find Ban, I found Ban was playing with my parents in the living room. It was jumping up and down. My parents were very happy too.

A few days later, my parents said the monkey should go back to the forest and live with other monkeys. I thought my parents were right, so I asked my dad to drive us to the monkey hill. There were so many monkeys. Ban could easily find his family. Lastly, I hugged Ban tightly and said goodbye to it. I was happy that I had a monkey pet for a short time. I hoped Ban would be happy with his family too.

When I finished brushing my teeth, the monkey rubbed his tummy. I thought it meant that it was hungry so I went down to the kitchen and fed him a banana. Mum asked me why I had a banana in my hand so I said I was hungry. So she said, "fine." And I hurried back to my room and I gave the banana to the monkey and it smiled. I was happy.

After I built the travel machine, I ate breakfast. When I came back, the travel machine made a weird noise. It went 'Click! Clack! Click! Clack!' until a mechanical voice said, 'Locating Cheese Land?' I was so scared and surprised so I fainted.

When I woke up, I was surrounded by cheese of all kinds. "What is going on?" I asked myself. But a voice answered. -"Do not worry, sir." A brown girl mouse was sitting by my side. "My name is Jeana," she said, "how about you, sir?" "My name is Beano." I said. "Where am I?" "You're in Cheese Land, and I am the Queen." Jeana said. "Today is my day off, do you want to come with me?" I gladly agreed because playing with a mouse Queen is very rare.

### Title: A Day as an ant

4B Matthew Poon

Today was a stunning winter day with a bit of sunshine. I was fully ready for the school picnic when I woke up on my bed. I got myself ready as usual. I arrived at school on the usual time. We took the bus to the Waterfront Park.

And then I was an ant.

When we arrived at the park, everything was ginormous. After staring agape at the world around me, I was greeted by another ant with silent coolness. He told me his name was Ay. I thought being an ant was rather hard, as I was quite small, this must be how Nick Yujicic felt. I mused.

Ay told me how he could help me to become a boy again. Ay said, "There's a national ant beauty contest coming up. If you help me win, I'll use my wish to turn you back into a boy."

Ay looked at me with his hopeful, bloody eyes. I signed, "fine, I'll help." "Excellent!" Ay exclaimed.

Soon after, Ay took me back to the colony, where all the ants were bustling about, excited for the upcoming competition. I was taken aback by the sheer size, of the anthill's interior, even despite my being, three cent, meters tall.

The beauty contest took place only a few minutes, and Ay wasted no time in his preparations. I helped him choose which dress made his eyes look nicer.

"I like the red one more." I told him with confidence. Ay smiled and agreed to the choice.

Shortly after, the show was underway. The judges seemed impressed by Ay's dignified outfit, but also quite liked another ant called Dee. While it was close, Ay managed to win by a single point.

Ay was extremely happy. He was glad that he had won, and he used his prize of a wish to help me return home.

After saying goodbye to Ay, I felt myself grow bigger. Finally, I was a boy again!

Next, the little brown mouse wanted to catch butterflies. As he picked up the net, the guard yelled, 'Stop! You are a king! It will be dangerous!' The little brown mouse felt very bored.

At lunch, the little brown mouse wanted to eat chicken drumsticks and sweets but the guard yelled again, 'Stop! Our Queen is a vegetarian. Only servants and guards can eat meat.' The little brown mouse was extremely hungry.

The little brown mouse thought being a king wasn't good so he told it to the queen. The queen said, 'It's alright. I will find someone to replace you.' But the little brown mouse said, 'I don't think anyone would like to be a king because it's not fun at all!' The queen said, 'If you don't like to be a king, you can go back to your normal life.' The little brown mouse answered, 'Thank you.' He left the palace and went back home happily.

4C Chan Yiu Laam

It was a stunning winter day with a bit of sunshine. I was fully ready for the school picnic. However, I found that I had become an ant when I woke up. Everything in front of me seemed to be so enormous!

Anyway I really wanted to go to picnic. So I hid inside the picnic basket and went to the picnic with all delicious food. Luckily, nobody noticed me inside the basket. I was hungry. There was a lot of yummy food and drinks. What should I eat first? Cakes, sweets, sandwiches, chips.....After searching through the basket, I chose to eat chips first. "It is yummy!" I said.

Suddenly, I felt the basket stopped moving. I realized that we reached the park. I climbed out from the basket and saw a wonderful park in front of me. I started to explore the park. I walked on the grass. 'Great!' I said. I met a new ant friends in here. They were busy looking for food.

Once a bit of food dropped down, they would run to it. Soon, a stream of ants was on the journey. They headed home with plenty of food.

The weather was warm and sunny. It's not as usual in winter. We all had fun in this special winter.

One gorgeous winter day with a bit of sunshine. I woke up. I was ready to go to the school picnic. When I opened my eyes, everything was so enormous. I was puzzled. I wanted to start packing my schoolbag but it was too large.

I went back to school, I saw that my best friend was a giant. I yelled "Jack", and Jack finally saw me. He told me I had become a tiny ant. I climbed on his shoulder. We played hide and seek in the playground. I hid behind Jack's back and I was too small so he couldn't find me. I won!

Suddenly, some students laughed at me. My best friend Jack protected me but I was sad. I thought about yesterday my mum rubbed some painkilling paste on my leg. So I ran home and asked Mum for help. We realized there was magic in the painkilling paste. So Mum immediately rubbed more paste on me. And then I became a human again.

Mum looked at the paste and found that it was expired!

Yesterday was No Queen Day, the little brown mouse wanted to see the Queen, but he couldn't go through the door because he was too small.

First, he went to the back of the castle and shouted, 'Queen Queen! The Queen looked out of the window and asked, 'what?' the little brown mouse shouted, 'Will you come with me and go to space?' The Queen thought, 'How could a mouse take me to space?' She went down stairs. The mouse told her, he built a castle that could fly. The queen followed the mouse to his secret base where he built the rocket castle. The little brown mouse told her that he worked on this for ten years!

Next, the queen said, 'Could I go inside? Is it the same as my house? Is it like a copy?' The mouse just had one thing to say, 'Yes!' As soon as the Queen heard that, she ran into the rocket and saw that what the mouse said was real! At first, she did not believe that at all. But now.....The queen had nothing to say. 'What is your name?' asked the Queen. 'I am Hinson Chan, you can call me Mr. Chan. From now on, you will be my friend, said Mr Chan. When they went into the house, they saw a monkey in a room, but the mouse scared it away. The queen was very surprised how a mouse could scare a monkey away!

Then, the queen called her soldiers to protect her. The queen told them she would go to the space. The soldiers laughed and said, 'Ha, ha! How can a mouse take you to the space?!' The queen shouted, 'Shut up! If you guys don't believe me, I can tell my lions to kill you all!' The soldiers were so scared, so they believed what the queen said.

At the end, the queen told her soldiers to go with her. Mr. Chan started the engine. He took the queen to the space. They wore spacesuits. But when they went to the space, the engine was broken. The queen felt so embarrassed. Why did she believe in a mouse? They had to be stuck in space forever.

**Title: An Amazing Journey in a Snow Globe**  
5A Hui Yi Nam

My aunt Dorothy travelled to Hokkaido last Chinese New Year and she gave me a snow globe as a souvenir when she returned. In the globe, there was the beautiful city, Sapporo. On the next day after I received the souvenir, I woke up and found myself trapped inside the snow globe. I couldn't believe what I saw, I was in the city Sapporo where I had never been to, but always wanted to travel to.

When I opened my eyes, I found myself in the Odori Avenue Park in Sapporo. I saw many snow sculptures displayed in the park. I remembered that it was Snow Festival and people came to see the snow sculptures for celebration. I was so excited because the park was crowded with people and it was full of festive atmosphere. So I followed the crowd to look at the snow sculptures. The kinds of snow sculptures were diverse. Some were giant animals and mythical creatures. Some were characters in Japanese comics and some were landmark buildings from all over the world such as The Eiffel Tower and Egyptian pyramids. I was stunned by the delicate craft of the snow sculptures.

Besides the snow sculptures, there were many booths selling delicious Japanese food such as octopus balls and Okonomiyaki. I bought a lot of food and enjoyed the taste so much. I was so full and exhausted. When I looked at my watch, I found that I had spent three hours there. I thought it was time to go back home. I sat on a bench and soon fell asleep. When I woke up again, I found myself sitting on the sofa in my home. It was amazing that the trip was so real and I still remembered the snow sculptures and the delicious food clearly.

Yesterday, my aunt gave me a snow globe. It is very beautiful! I like it very much. I looked at it for the whole day.

One day, when I woke up in the morning, I found that I was inside the snow globe. I saw a beautiful castle in the snow globe. I went inside and saw some ghosts! "Eek!", I cried. "There are a lot of ghosts! Help!". I ran out of the castle. Suddenly, a man saw that those ghosts were chasing me. He ran and killed those ghosts. He threw a golden egg into the air. It turned into a dragon and it burned the ghost into ash. But, those ghosts threw me into the sky so I was free falling. The man caught me. I thanked and asked him, "What's your name?". "My name is Eddie. I am a ghost killer", He answered. "Oh, hi Eddie!". Then I followed Eddie to travel in the snow globe.

First, we went to the theme park. Suddenly, some white plastic flakes fell on my head! I picked them up and looked at them. "These are fakes", Eddie said. "Oh, I see! I'm new here so I didn't know", I replied.

Then, we went to the restaurant to have food. Eddie ate metal spaghetti and I ate a paper sandwich. It tasted like a real sandwich.

I asked Eddie, "Is there a way to get out of the snow globe?" "You can read a book called 'Inside a snow globe'," he answered.

Finally, we went to the library to read the book "Inside a snow globe". When we entered the library, I saw a mountain of books! They were just put there without any sorting system. There were no bar codes or index numbers on any of the books. Of course, we had found the book already as I invited Eddie to read the book with me. Suddenly, a spark of light appeared and I woke up,

I saw Eddie on my bed. "That's wasn't a dream. It's real!" I said.

When I woke up in the morning, I discovered that I was lying on the street. It was a city where I hadn't been before. I walked along the streets and only saw a lot of 'Emojis' in that city. However, I couldn't find a human. I looked up and saw the city being covered by a glass globe. I also found that my bedroom was outside the glass globe. Oh! I was so shocked because I realized that I was trapped in the snow globe.

Suddenly, an Emoji walked towards me and said, "Are you a human?" I replied, "Yes, I am." He was surprised because it was his first time to meet a human. He said, "Welcome to the Emoji World. Can I make friends with you? I am the Emoji Hi-Fi." He also said, "Come with me! Let's go to meet some others Emojis." After that, I followed him to a party where he introduced me to other Emojis, namely Emoji Smile, Emoji Big Bang, Emoji Manure, Emoji Money, etc. I asked them, "How can I return to my world?" However, no one could give me the answer. At that moment, Emoji Hi-Fi said, "You need to ask our master. He can answer your question."

Emoji Hi-Fi took me to their master's house and I met Emoji Master. He told me that I had a dream of entering the Emoji World when I was sleeping. Therefore, I entered their world. If I wanted to go back to my world, I had to sleep again and make a dream of my world. I asked him, "Can you do me a favour?" "What's that?" asked Emoji Master. I replied, "Make me tired, please!" Emoji Master said, "My pleasure! Let's start playing now." Then we played video games together until I felt very tired. Finally, I fell asleep on a sofa.

Suddenly, I heard a familiar voice. Then I opened my eyes and saw that my mum was standing in front of me. She shouted at me, "You are late for school, get dressed now!" I found that I had returned home, I looked at the snow globe which was on my desk. At that moment, I wondered whether I had dreamt or really had been to the Emoji World. Anyhow, I hope I can go back to the Emoji World once again.

Last summer holiday my favourite aunt went on a trip to Japan and she brought back lots of souvenirs like clothes, toys, ornaments and all kinds of things. When she came back to Hong Kong, she surprised me with a souvenir. When I unwrapped the gift box, I yelled, "it is a globe!" I liked the present very much so I put it on the desk in my bedroom.

Inside the globe, there was a mysterious city that was made of many gingerbread houses with snowflakes everywhere.

The next day I woke up and I was surrounded by many gingerbread men and icing sugar. It was very exciting because I had never been to such a wonderful city before. It was beautiful with a lot of colours from all the candies and they smelled delicious too.

I started to walk and explore the city when suddenly, a magical fairy appeared. She looked like Tinkerbell but she was pink. She had a wand that sparkled and her wings were huge. The pink fairy asked me, "Why aren't you a gingerbread girl? Who or what are you?" "I am a girl from Hong Kong," I answered the fairy. "Oh, I see. I think you are trapped in gingerbread land. Let me help you!"

The fairy swung her sparkling wand and began to chant. It became very bright and there was a loud 'bang'!

"Ouch! That hurts!" I woke up in midair in my room and landed on the floor with another loud 'bang'! My bottom and my head hurt but I was happy to be back.

Last month, my aunt gave me a snow globe as a souvenir. She bought it when she went overseas to another country. I asked her where she had been. She said, "It was a big secret." I was puzzled about it but I thought the snow globe was beautiful. It was a city that I had never been in.

On the next day, I woke up and saw a lot of puppets surrounding me. The sky was covered by glass. I was trapped inside the snow globe! One Puppet said, "A traveller arrived! Let's pick him up before the king comes!" Then two other puppets took me to a 'Puppet Car' that was pushed by puppets. I was scared to see the king, so I screamed. The two puppets comforted me and said, "Don't worry as the king is hospitable." I said, "You are very nice. What's your name?" They answered, "We are Andy and Sandy." Outside the car's window, I discovered that all things were made of wood, like wooden cars, wooden street lights, wooden motorcycles. Even the animals were made of wood!

Ten minutes later, we arrived at the king's palace that was made of wood. The King laughed and said, "Welcome to the Puppet Kingdom! I have ordered one thousand engineers to build a house for you!" But I wanted to get out of the snow globe and not live there! I started to talk with the king, "I don't want to stay here as....." Then Andy and Sandy took me away so I couldn't finish my talk. I shouted, "I want to go home! I want to go home!" But the King didn't listen.

The engineers started to build my house quickly. Five minutes later, the house was almost done. I thought the engineers were superb. How could they build the house so fast? Suddenly, a huge hand appeared in the sky and made the land shake. It was my younger sister! The King just came out from his palace but he fell down into the river. He yelled, "Help me! Help me!" I heard the yelling from the King, so I came near the river with a rope. I threw the rope to help the King. The King gripped the rope and he was safe!

To thank me, the king said, "I can do one thing for you." I asked, "Can you send me home? My family must miss me so much." The King murmured, "L L Lemon go!" Then, there was a beam of light shining on me. I finally came back home and I felt extremely jolly.

### Title : The Secret Passageway

6A Jennifer Lau Yan Ki

I was reading a book in the library when suddenly, something bumped my head. I looked down and saw that it was a book. It was very sparkly and obviously a magical book.

Curiously, I picked it up and flipped through the pages. As I did so a letter fell out. It was as old and dusty as the book. The handwriting was unclear but I managed to make out, '... a secret passageway in this school...' I was stunned, excited but also confused. I kept reading but a sudden wind blew the letter away. Quickly I chased after it.

I chased it through the halls before I finally caught it. However, even in my hand it acted strangely and it kept turning in circles. I felt that it was guiding me to a wall near the school entrance. Without knowing why, I dusted the wall and found a tiny lock. Suddenly a key appeared out of the air and landed on my hand. I used it to open the door.

I followed the magical pathway until I came to another secret door. I opened it to find myself in a deserted castle. I was scared but I knew I had to find out what this place was. A mist appeared before my eyes and out of the mist came a ship. Somehow, I knew I had to get on that ship. As quickly as I did so this ship moved off into the sky.

It was strange, clocks were ticking and time it was flying past not only in minutes hours and days but also years. I didn't feel very good about what was happening.

Without knowing why, I realised that I had arrived in the year 2050. I looked about myself and saw that all of the people have not two but four eyes and they were all couch potatoes. They all lay or sat on their beds and couches and used electronic devices to communicate with each other and for their work. Never did they use their feet to walk or use their mouths to communicate. I was devastated. They had both hands and feet but relied solely on their technology. I could never imagine people could be so dull and fatuous.

Then I heard a voice from the ship. 'The people here rely too heavily on technical products that they can buy every day... it caused a disaster.

I nodded my head sadly. And then the same voice spoke again. 'Hurry young lady, you will become one of them unless you leave here now.'

I was appalled so I dashed onto the ship.

I closed my eyes and could only hope that this was all a horrible dream...

It was a normal day. I went to the library like usual. I picked a book and read it at the corner. Suddenly, I found an old letter tucked inside the book. It revealed that there was a hidden passageway at school! I was curious so I tried to find it.

I looked for the passageway every day. However, I still could not find anything. One day, I went into the toilet. When I was washing my hands, one of the walls disappeared! 'Here it is. The secret passageway!' a strange voice said. I was shocked but more curious. Therefore, I went into it.

When I went to the end of the passageway, I saw a big rainforest and big blue sea next to it. 'Where... am I?' I asked myself. At that time, I heard someone talking. I ran there. When I saw the one who was talking, I was totally shocked! Do you know what I saw? Different kinds of endangered species like pandas, orangutans, tigers and sharks and they were having a conference! I hid in a bush to listen to them.

'People make so many kinds of pollution causing us to be endangered!' groaned the sharks. I agreed because I polluted too. 'They kill us to make products!' complained the tigers. I felt sorry because I have bought those products before. I decided to change my bad habits and help endangered animals.

Suddenly, the bell rang. I opened my eyes and found out I was in the bedroom. It was just a dream, an exciting and meaningful dream.

### Title : The Secret Passageway

6A Cheung Chit

I was sitting by the fireplace, drinking a cup of hot chocolate. It was raining cats and dogs outside the window. I sat leisurely on an old rocking chair reading the book that I borrowed from the school library- "Ready Player One". I found an old letter tucked inside the book which was about a hidden passageway at school. I didn't pay much attention to it since I thought that the person who wrote it was too into reading the book. I quickly laid it on the table and didn't even bother looking at it.

Right after the night that I found the letter, a disastrous event occurred. The letter was found by my mum and was opened in public. Everyone now knows that there is a passageway at my school. Clans quickly appeared to find the mystery passageway, some were putting up banners to recruit members, and some were already digging holes all around the school to find it. But after three months there were still no progress made and everyone was depressed. However, the principal wanted us to help find it.

Now everyone thought that the letter was fake and was made just to draw attention. It had been ignored until now but there was another clue about the passageway. Someone had found another letter and I was that person. This second letter was about the person who made the passageway, the founder of the school. First things first, I needed to know about the founder. If I could find out about his attitude, I could know where to look for the passageway. Fortunately the school hadn't been changed or rebuilt and it was unique. It remained the way it was when first built and in the way it was designed by the founder. I now knew that the founder was a cheerful and clever person. He was clever, so he would have made the passageway hard to spot, or in plain view but hidden extremely secretly. I preferred the second condition since I was an expert in finding secret buttons.

Everyone had given up and I was the only person looking for it, So I decided to look for it at the hallway of school history. I knew that it would not be underground, so the hallway was the place with the highest possibility of finding it. I tried to flip over each picture through the hallway every night. After a whole month of 'hunting', I found a secret keypad hidden in the roof of a building on a picture. But the password remained as a secret.

## P.6 Secrets, animals, saving the world!

Quickly, I discovered that the password was hidden in the letter, I searched for a decipher tool. It appeared that the password was the total word count of both letters. I entered the password and the picture flipped over slowly and smoothly. It was the most exciting moment in my whole life. I crawled into it and found a lot of books. I also found some words carved on the wall. It revealed that this was a 'Spell Library'. I picked up a book and it was a diary. The writer, Mr. Freddy Bary was a wizard and he was the founder of the school. He wanted anybody who found the library to use the spells for good. I tried one of them and the chair teleported in front of me. I felt shocked. I spent the whole night reading spells over and over. After a while, I decided not to tell the principal for the meantime. I went in there and learned spells every night.

I thought that being the only one to know the spells would be selfish so I told my best friend, Ryne, who could keep a secret about it. And of course, we promised to use the spells only for good. We are now great wizards and we aim to make the world better with the spells.

### Title : Green tips

6A Yuen Ka Tung

Humans cause serious pollution around the world such as air pollution, land pollution, light pollution and sound pollution. What can we do about them? Well, here are some green tips.

Humans throw away a lot of disposable products such as plastic bags, paper lunch boxes and plastic bottles. This makes serious land pollution. We can reduce land pollution by bringing our own bags to buy things. We can avoid using plastic bags. Secondly we can bring our water bottles when we go out. We can even bring our own lunch-boxes.

Air pollution is getting more and more serious around the world. Factories and cars are making so many fumes. We should use public transport rather than driving ourselves. This makes less fumes. Also, we should use less paper. You may think 'What does paper have to do with air pollution?' Well, actually, paper is made from trees. If you use less paper, people will stop cutting down trees and trees will produce fresh air. It will make the air more refreshing.

And here is all of my green tips. Do you agree with me? If you do, please follow the instructions and help the earth. Act before it is too late.

Once I borrowed the book 'A Brief History Of Time' from the school library. I thought that book was really interesting, but when I flipped to the last page of the book, I found that book wasn't normal... There was a very old letter tucked inside the book! I read the letter and discovered that there was a secret passageway at school – the big old mirror which was in the Art room. I was so curious about the passageway and decided to visit it.

After school, I sneaked inside the Art room and found that mirror. I put my hand near the mirror and saw my hand disappeared! Then I walked closer to the mirror and found that I had teleported to another place and turned into a P.1 student! I had jumped into a different timeline!

At first, I felt really strange and uncomfortable, but after a few days, I felt so much better. At that moment, a thought came out of my mind. 'I am so much smarter and stronger than other students. I don't have to be worry about all my exams! Haha!' I thought.

Therefore, I didn't work on anything for the first exam. However, I had the best result among all the students since I had the intelligence of a P.6 student, everyone who didn't know the secret felt really surprised about that. At that time, I felt so successful and decided to do it again. I had the best result in the second exam, the third exam, the fourth exam and so on. I was happy at beginning, but soon I realized that I made the exam not meaningful anymore. Besides, all my friend left me because of my arrogance and I was extremely upset about that. I decided to return to the normal world.

After I came back, the time was exactly the same as I went inside the mirror! I went back home and studied for my exam. After that crazy adventure, I have learnt that instead of keeping ourselves in the past, we should learn how to face the future!

At the first moment, I was so excited since I could finally fly freely in the sky. It was my dream! However, I checked online and found out that I had become a kind of bird called an albatross. I also learnt albatrosses are an endangered species. I was so curious so I flew outside from the window.

Then, I wanted to find some food for breakfast. The information on the internet said, 'Albatrosses' favourite food are fish, squid and crabs.' I thought, maybe I'll try some crabs! I flew toward the beach and found some of them under the rocks. I opened my mouth and swallowed them all at once. They were very yummy!

Next, I flew to the Wetland Park since I wanted to find my friends. Fortunately, I found other albatrosses that were having a chat so I joined them. An old one sighed, 'These days, there are more and more longline fishing lines, and they trapped a lot of our children!' Another adult agreed, 'Yeah! My son lost his life because of it. Humans also hunt some of us down!'

I thought their conversation were meaningful since I could learn more about the problems we're facing.

After that, I followed them to our living place. In that place, I found a fairy who I told her my situation to and she gave me a bottle of magic syrup. She explained, 'After you drink this syrup, you can turn back into a human.' I thanked her sincerely and drank the syrup quickly.

A few seconds later, I was back!

Although being an albatross is terrible for a human, it means that we can learn more about albatrosses' habitats and habits. I learned how to help them as well!

Do you notice that the air around us is stale? Do you feel that the sound we hear when we are walking is annoying? Do you think that the light in Victoria Harbour is bright as the sun in the afternoon? Air, noise and light pollution is the major reason for all the situations mentioned above. In recent years, pollution has become a serious problem in our society due to human activities. It is high time we knew more about pollution and several green tips to make the world a better place to live.

Air pollution is one of the environmental problems that arouses biggest concern in Hong Kong. It refers to a huge amount of harmful substance like carbon dioxide (CO<sub>2</sub>), sulfur dioxide (SO<sub>2</sub>) and particulate matters (PM2.5), being introduced into Earth's atmosphere in a short period of time. Gas emission from large vehicles and burning of fossil fuels lead to the increasingly serious air pollution in urban areas. It causes photochemical smog and global warming. In addition, it kills more than 60,000 people per year in the world as it accelerates the development of heart and lung diseases.

Another pollution that we face every day is noise pollution. It happens when people or animals are exposed to a continuous deafening sound, such as loud noises produced by construction work and numerous cars on highways. Because of noise pollution, birds find it more difficult to locate their prey by their hearing system. It also increases the chance of getting high blood pressure, especially for elderly.

We can see that air and noise pollution bring about severe impacts on the environment and our health. Here are some green tips to alleviate the pollution levels and cope with the negative consequences of pollution.

Firstly, use more public transportation instead of driving private cars. This can decrease the number of vehicles on the roads and thus reduce greenhouse gases emissions. Moreover, it involves less oil consumption.

Secondly, grow some plants at home and at school. Plants photosynthesise with CO<sub>2</sub> under sunlight. This process changes CO<sub>2</sub> into oxygen. So there is less greenhouse gas in the air. The speed of global warming is slowed down.

Thirdly, install soundproofing boards on the wall if we have musical instruments. Soundproofing boards can avoid noise escaping from the house. Therefore, your neighbours will not be affected by the sound of music. They will not shout at you because of "beautiful" noise too!

Actions speak louder than words. Readers, just do it for a better future without pollution.

### Title : The Secret Passageway

6C Wan Chun Hin

I had found an old letter tucked inside a library book. The letter revealed that there was a hidden passageway somewhere at school. It made me so surprised and excited. Therefore, I decided to go for an adventure and see what would be found.

Following the letter clues, there was a downward stairway backstage of the school hall and it was hidden behind the rack. It seemed to have not been opened for a long time. I plucked up the courage to open the door but could not see anything inside. It was so dark there and had a bad smell. I turned on my mobile torch. Unfortunately, it was very weak. I went down the stairway and I could only see some interesting drawings on the wall, with my favourite Mickey Mouse as well as other cartoons. It might be this reason which lead me to keep on going. In the passageway, it was not wide but still clean. I did my best to open my eyes and wanted to see more of the end of the passageway, but I couldn't. I walked forward step by step very slowly and carefully. I felt that I had been walking for a long time and didn't know when I would reach the end.

Suddenly, the torch light was turning off! Oh, my god! I was surrounded by darkness. At this moment, I ran forward immediately screaming. 'BOOM!' I crashed! I saw a door handle and opened it quickly. I saw some light from the upper place and it looked like an angel who was coming to save me. I climbed up at once without any consideration. Wait! Here was the other side of the backstage. Oh, I just walked through under the stage.

Formerly, it was a passageway for performers to walk through the stage from one side to other side, but nowadays, it is no longer being used. Although this experience did not meet my expectations, it was alright.

Yesterday, I found an old letter tucked inside a library book. The letter revealed that there was a hidden passageway in the principal's room.

I was so curious about the passageway so I decided to go to the room. I hoped I would find something interesting.

The school bell rang. I packed my school bag quickly and ran to the mysterious room. Then, I looked into the room from the window. I saw that the principal locked something with a password. I remembered the password and I waited for the principal to leave.

After that, I climbed into the room from the window and I found a big door that was locked. I got into the passageway by opening the door. However, I didn't pass through it because I thought it might be dangerous. I thought I should find more classmates and friends to go there to unveil its mystery.

Oh no! There are too many endangered animals the world, such as tigers, pandas, foxes and dolphins. We need to stop polluting the world!

As an example, dolphins. Why did dolphins become an endangered animal? It is because people keep throwing rubbish into the sea and also there is much building works in the sea too.

It is very noisy when doing the building works. It affects the dolphins and they cannot use their ears to find their way around, to hunt fish or to escape from danger.

Sometimes, they crash against the building boats because too many boats are on the sea. They will easily get injured and die.

These things will happen unless we stop building.

I hope people will stop polluting the world, so the endangered animals will get saved.

### Title : If, I am a Polar Bear

One day, I woke up and found that I had turned into a Polar Bear.

I had short claws, big feet and very thick white hair and lived at the North Pole. I knew these things helped Polar Bears to be able to live in the water and on land and live in very cold areas, walk like a humans and catch seals.

I was also a good swimmer, I spent the whole day sitting on the ice and waited for seals to appear. I ate food such as, fish, eggs, vegetation, reindeer, rodents, birds, berries and human garbage.

I will be extinct unless people stop creating so many harmful gas and hunting too many animals.

One day, I went to library to read books at school.

I saw an old book when I was walking. When I opened that book, an old letter fell down. I was looking at the letter 'There is a hidden passageway somewhere at school.' I saw another piece of paper in the book. The paper revealed, 'The secret is in the back drop...' then the paper ripped.

I thought that it was fake so I didn't go there and I went back to my classroom to study. Then the bell rang. Since my home was behind the school, I must walk past the school backyard. I dropped down a hole onto some soil and I saw a passageway. I couldn't do much so I searched the passageway.

However, I soon heard some noises. I saw a woman with a bat. I knew her as Zranny. She used a bat to hit me. I fell down on the floor.

'Wake up! It's seven now' a very familiar voice said. Oh! it is my mum.

Now there are many pollutants in the world causing air pollution, water pollution and land pollution. They have become very serious.

Land pollution is a big problem in Hong Kong. People use so many disposable products. Therefore, people throw away so much rubbish, but there is not enough landfills for all the rubbish.

There are many private cars in Hong Kong. They produce a lot of fumes. They make the air pollution worse.

Water pollution is also a serious problem. Many people throw a lot of rubbish into the river and the sea.

We can do something to solve the problems. We can reuse old clothes and toys or donate them to a charity shop. We can recycle bottles and cans or drop them into the recycling bins. We can use public transport instead of private cars. It can reduce the air pollution. We can have showers instead of baths. It can save water.

Few months ago, I had a study tour to USA—Kentucky. It was the first time that I went overseas by myself. It was an amazing and meaningful experience. In the early morning, I went to the airport with my parents. Meeting my classmates and teachers at the airport and preparing for the trip were exciting.

When it was time to say goodbye to our parents, we were a bit nervous and sorrowful of leaving our families. We took about fifteen hours to get to Chicago, and we took a plane to get to Lexington. It took about two hours. We arrived at the Blue Grass Airport. Miss Wong then told us, 'You will meet your host family when you get downstairs.' We were surprised and overjoyed about this good news.

Hidy, Musa, Joycelyn and I met our host family—Hisle Family. They have five kids, Alan, Sidney, Justin, Ellie and Sadie. We went to the family's home. We both couldn't sleep because of jet lag. We had a pillow fight.

The next day, we went to school (Red Oak Elementary School) with Ellie. We made some new friends- Mallory, Kennedy, Hailey and Victoria. That day, we played happily and had snowball fights at midnight.

On Friday, we didn't need to go to school so we went to a horse park, a mall and a wet market. We had so much fun that day. We had to leave on Saturday morning. That night Jocelyn and I wrote a thank you card to Hisle family.

That morning we cried and gave the thank you card to Ms Lindsey. We didn't want to leave. We would miss them so much. We said goodbye to them and went to the airport.

I was proud of myself as I had never imagined I could go to USA without my parents. Joining this study tour was an enjoyable and a valuable experience for me! I'll miss you so much, the Hisle family.

In April, I had an unforgettable experience. That is about I went to USA with my classmates and teachers. We went to Lexington. We needed to go there by plane for fifteen hours in total (including the plane from Hong Kong to Chicago and the plane from Chicago to Kentucky). We needed to live in the host family's home.

I found out that the school there was slightly different from our school. On the first day I went to the school in the morning and I found out the first thing that was different from my school was that we needed to sit in the gym room for the morning assembly. My host family Ethan told me that the lessons every day are almost the same instead of the specials like Music and Art. I also found out that we needed to change classrooms for different lessons instead of the teachers coming in. The school there only had a ground floor so we didn't need to climb up the stairs. I have learnt lots of knowledge about the culture in USA at school.

I thought the most valuable thing in the whole trip was introducing the culture in Hong Kong to all the fifth graders in Red Oak Elementary School. After presenting, I became more confident. I also learnt how to prepare the PowerPoint well.

Playing in Malibu Jacks with our friends and host family was the best memory in the whole trip. We could play new games such as Racing Kart and laser tag. I will never forget the feeling of being crashed by a car!

I am so proud of myself that I could participate in the trip. I would never forget this precious experience. I hope that Ethan, my host brother can visit Hong Kong soon!

It was a memorable experience about going to the US for an exchange tour. I have never been on a trip overseas myself before so I was quite nervous about getting homesick. However, it turned out to be way more different than I expected.

When we hopped on the jet to Lexington, I was super exhausted. I slept the whole time. I woke up in terror when the jet was landing. I was shocked that it was nearly ten o'clock at night. We got off and we met our host families. They were very sweet. The children made their own posters to welcome us. My heart nearly melted down. I had done research before I went on this trip so I could get along with the kids well. We got on like a house on fire! Later, Addison and Reagan showed me and Tiffany their house- it was huge! We had a bonding time after that.

We went to school with the host families. It was unforgettable. There was a list of differences between us: firstly, there was a subject that we didn't have in Hong Kong, Social Studies. It was hard to understand because it was connected with American history. Others were great, especially when we could talk freely during lunch time. The one thing I didn't really like was that there was only one recess. I struggled a bit when I needed to have a quick toilet break during class.

Time flies, and it was the end of the trip. I wish we could stay longer than just a week but things had to come to an end. I hope I can visit the US soon and also stay in touch with the friends I made there.

I have had a marvelous time in Kentucky, America. I've learnt a lot and had loads of wonderful memories on those days.

Firstly, I met my host family, they're all very nice to us. My host parents, Miss Lindsey Simpson and Mr Deric Fowler, who takes care of me well. My host siblings, Alan, Justin, Sidney, Ellie and Sadie. Ellie is a kind and humorous girl who I went to school with. She helped me a lot so that I could fit in the lessons and school works easily. They also had a cute dog called Jass, he was very active. He liked playing ball-catching with us in our big house.

Secondly, I made lots of new friends and learnt a lot of new things at school. In America, there were some lessons which were very uncommon in Hong Kong's primary schools, such as, science and social studies. I learnt about the history of America and different personages' story. I couldn't understand the school work thoroughly at first, but Hailey, Mallory and Victoria (The friends I made there) had guided me through several things. I thought that they were so friendly and enthusiastic.

Lastly, my host family took us to different tourist spots to let us know more about their country. We went to the horse park, where lots and lots of talented horses were lived. We also went to an indoor playground where they had racing cars, 4D horror movies and various game machines. We went to many souvenirs store too, we bought snacks, clothes and books for our relatives and friends. On the last day, we wrote a thank you card to them. I would like to thank them for taking care of us and creating fabulous memories.

This trip was definitely amazing and extraordinary! I've learnt to express my feelings and to fit in different environments. I would never forget how this meaningful trip meant to me and all of the unforgettable experiences I had.
